# Participating team in the 1st Walther Croatian League in the air pistol discipline

**mSC**

**MS Cofek**

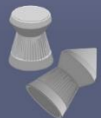

## Dear Customer

We have a lot of experience in our company in the production of ammunition for air weapons. With many years of experience in competitive airgun sports, our ammunition is equipped with all the necessary features to achieve the best results. More than sixty years of development and production, as well as competitions at various levels, is the result of the current high quality of our products. The presentation of diabolo ammunition describes some of its characteristics and for what purposes it is best suited.

Every day we strive to develop new products for demanding shooters and improve existing ones. Our own technology enables us to do this. We are confident that we can deliver ammunition from our assortment that will suit your demanding shooters.

MSC Team
